

Progetto Pilota Marina di Grosseto

Dott. Lorenzo Lubrano
CEO & CO-Founder

An underwater photograph showing a large amount of clear plastic debris, including what appears to be a fishing net, floating in the water. The water is a deep greenish-blue.

500 mila tonnellate di plastica in mare ogni anno.

A close-up photograph of a sea turtle swimming in clear blue water. The turtle is holding a piece of bright blue plastic in its mouth.

700 specie minacciate nel mediterraneo

A white rounded rectangular box containing the main title of the infographic.

PROBLEMA:
L'inquinamento marino da plastiche

An underwater photograph showing a vibrant coral reef. Two yellow butterflyfish are swimming in the water. A piece of clear plastic debris is visible near the coral.

Entro il 2050 nei mari ci sarà più plastica che pesci.

A photograph of a beach completely covered in a thick layer of multi-colored plastic waste, including bottles, bags, and other debris. In the background, a small boat with people is on the water.

L'80% dei rifiuti trovati in mare proviene da fonti terrestri

Blue Eco Line

Conoscere

Analizzare i dati
per agire in modo
efficace

RIVER EYE

Agire

Intercettare i rifiuti
nei fiumi per ridurre
l'inquinamento

RIVER
CLEANER

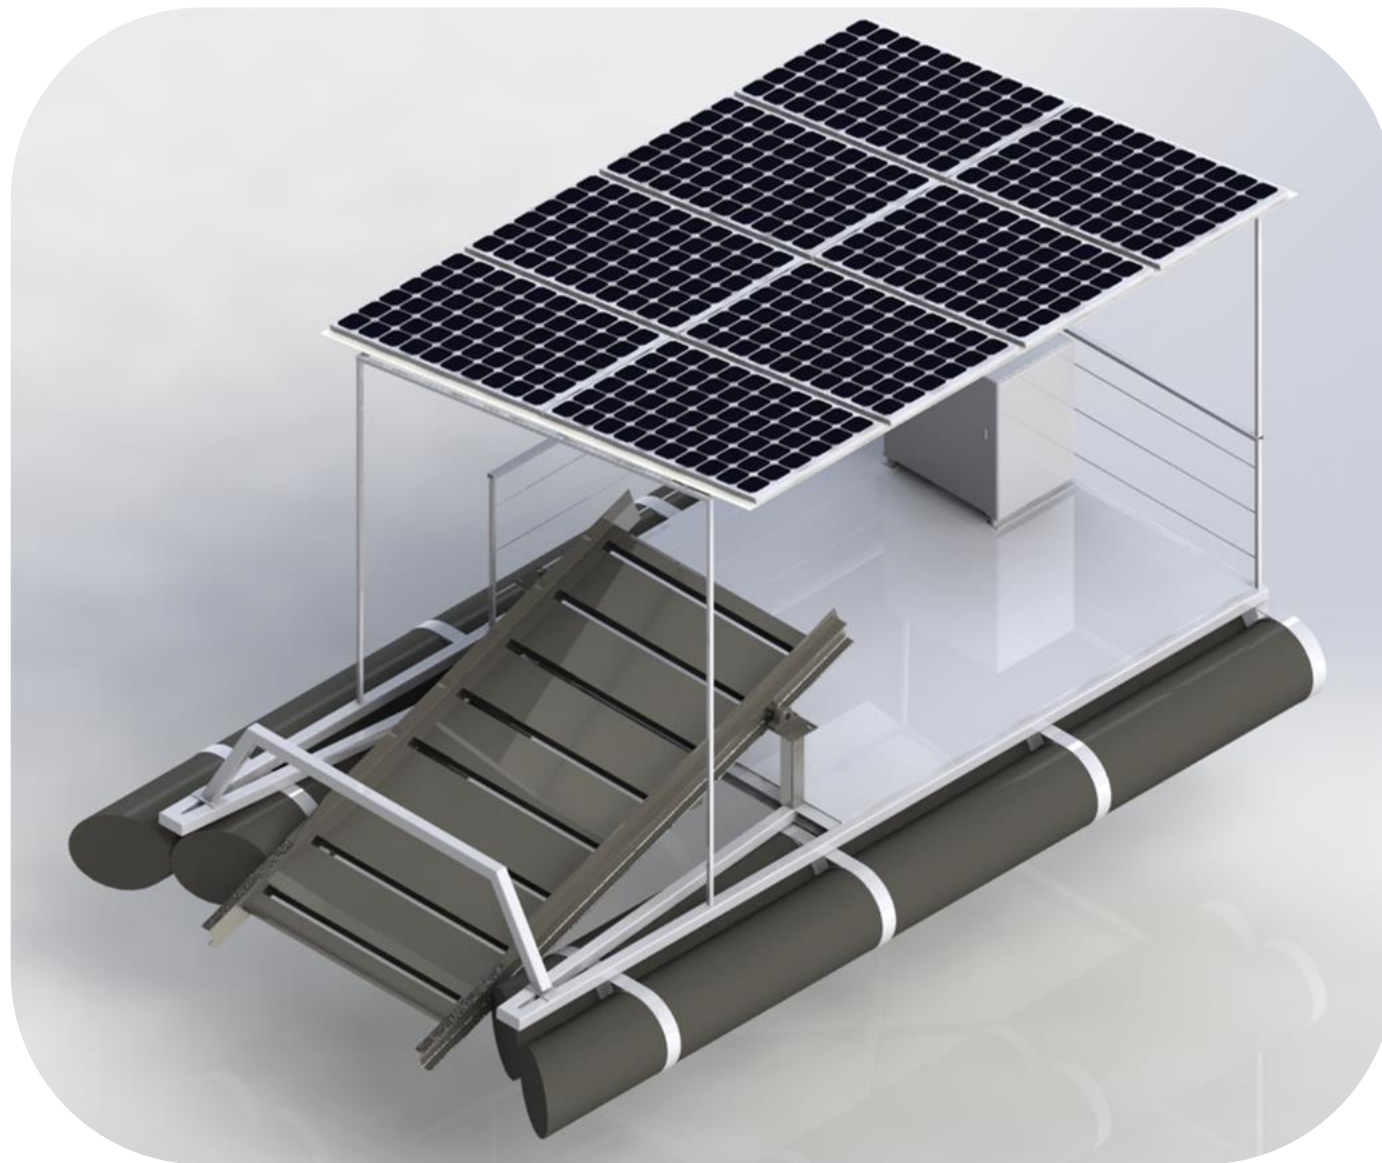

AGIRE

Il primo impianto autonomo che intercetta la plastica prima che raggiunga il mare

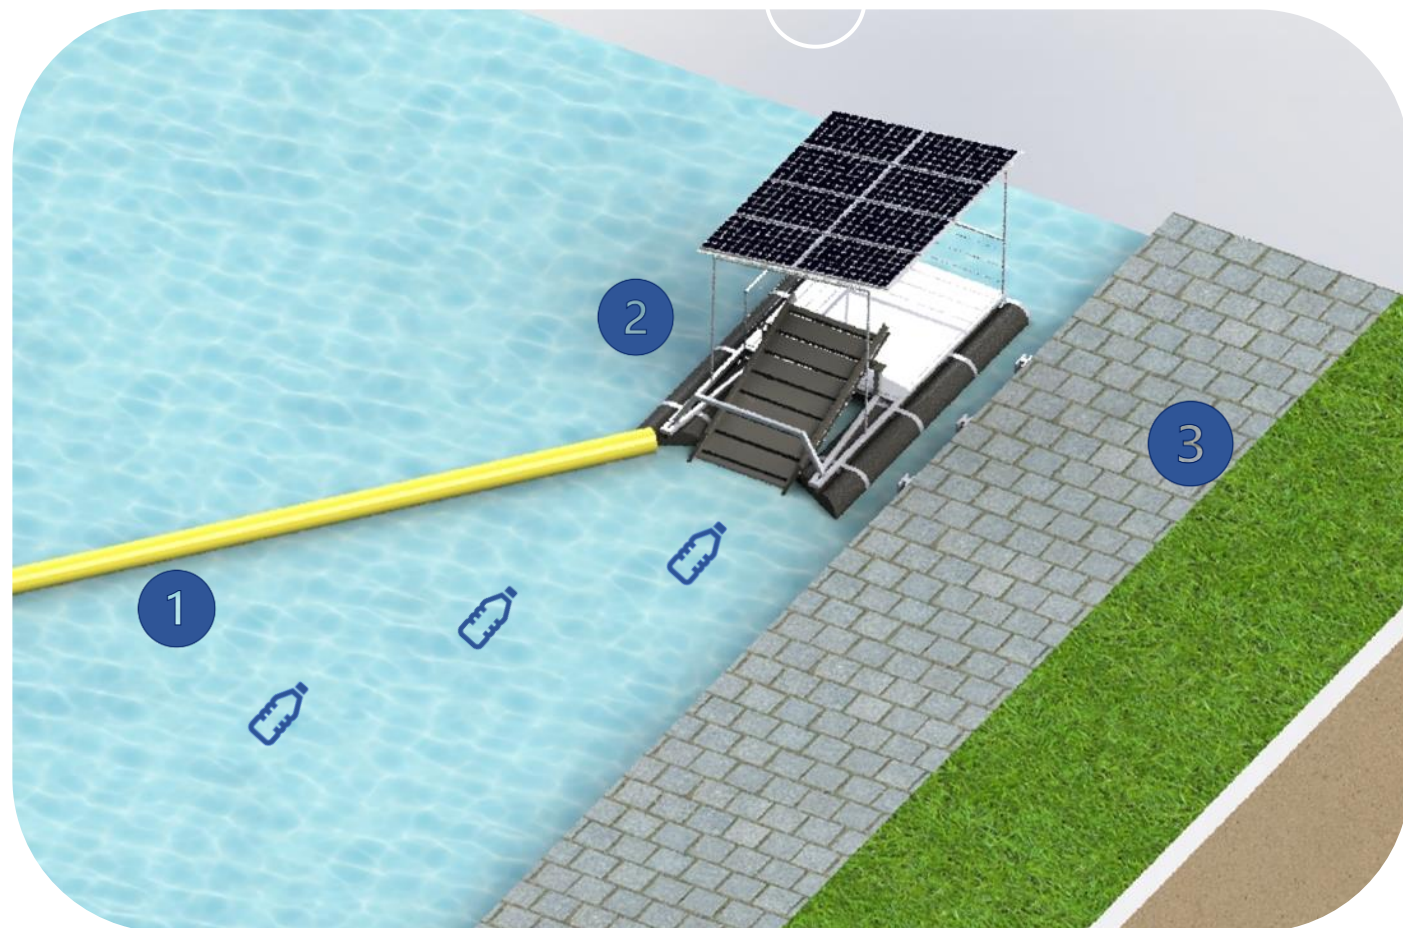

Modello flottante

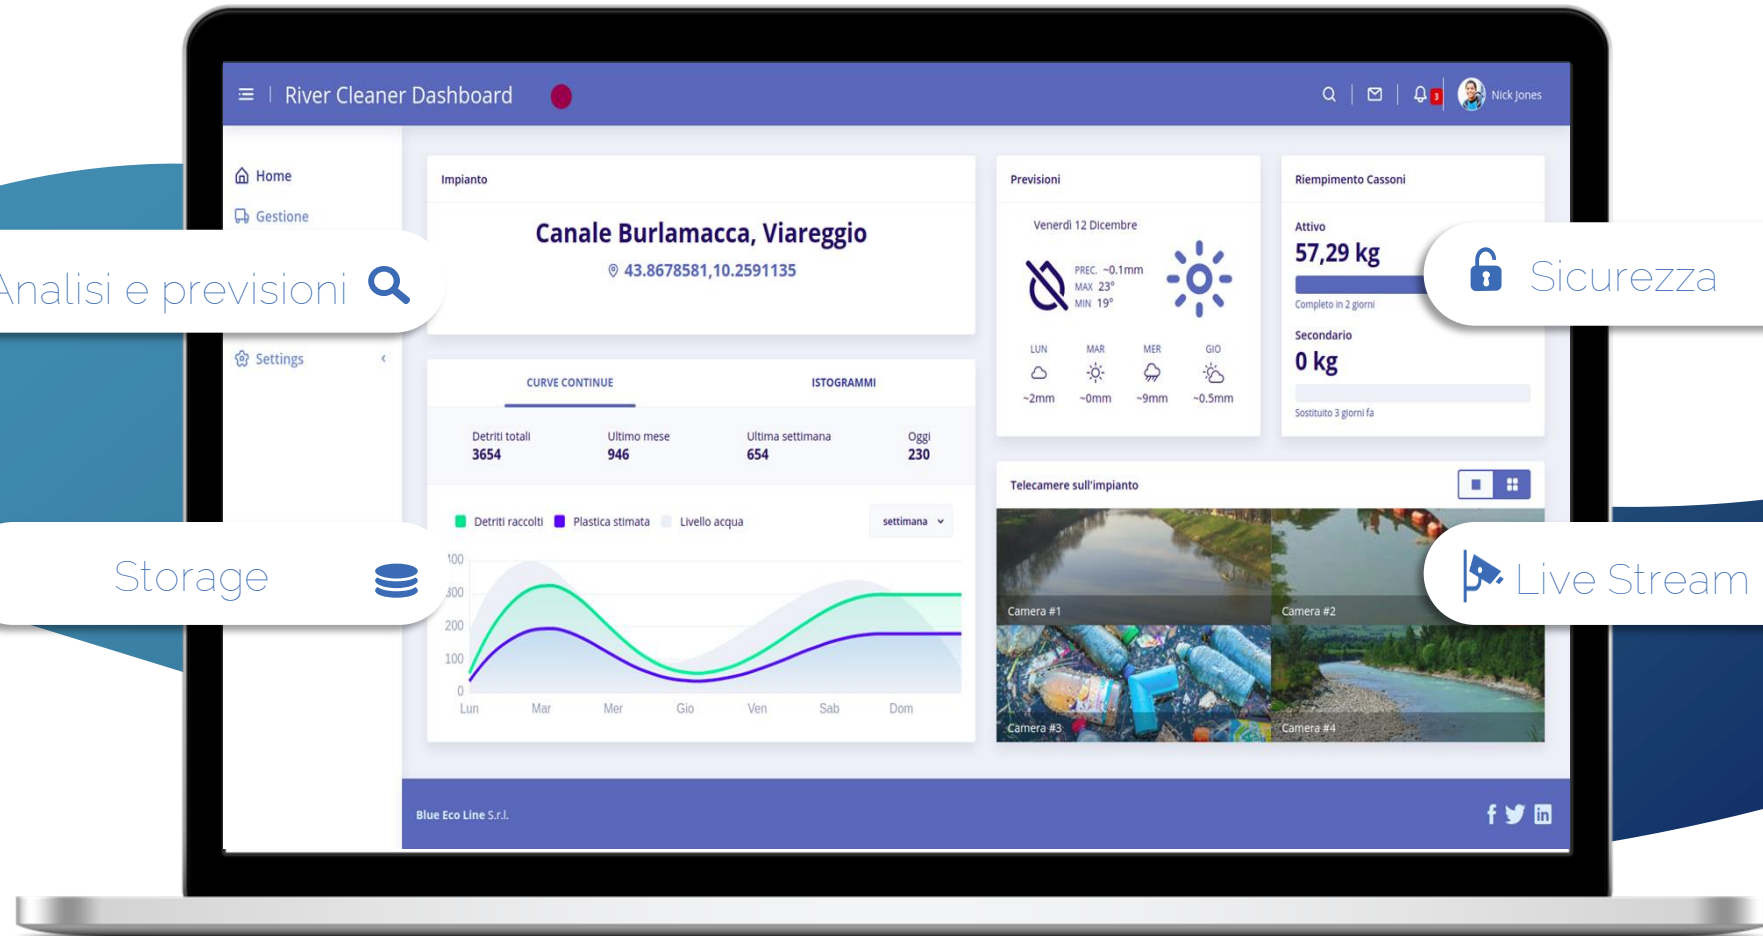

Come funziona

- 1 La plastica impatta sulla barriera
- 2 Raccolta in cassoni grazie al nastro trasportatore
- 3 Avvio al riciclo con mezzi standard
